

Covid Statement

Advanced Gynaecological Surgery Centre (AGSC) is taking precautions to keep patients, nursing and medical staff as well as the community safe from the spread of COVID 19. This is in keeping with current advice from SA Health.

We are a small but busy clinic with a commitment to staying open across the pandemic. As per SA Health directions, exposure to COVID 19 at AGSC, would require us to close for 7-14 days. This would have profound repercussions on our existing and future patients as we would not be able to provide care, including necessary surgery, during this time.

As such, AGSC is not able to offer face-to-face appointments for unvaccinated patients. Proof of your vaccination status is required upon arrival to the clinic. A TeleHealth alternative may be discussed with you but this may not always be appropriate for your health needs. We will endeavor to assist you with alternative health care options.

AGSC understands that this is a difficult and challenging time for everyone. Your understanding of the broader public health concerns and the need to reduce the risk of spread to hospitals and nursing homes is greatly appreciated.
